

# Carson

aka Ruddy

Chris and Ann Johnson

Carson was rescued from a puppy mill in east/central Ohio. He was eight weeks old and one of eight pups in the litter. His rescue took place only two weeks before the Ohio Dog Auction date where he would have likely been sold to the highest bidder. He was rescued by Vilma Briggs and was sponsored by Karen Bell. Carson found his home through Thirtyme Rescue. He lived with Karen Bell for several weeks in Harrison, Ohio before he went to his home near Chicago, Illinois.

He has found his forever home with Chris and Ann Johnson and has an aged Golden Retriever sister named Schlager.

Carson was one of those pups that you just thought of the word "CUTE" when you saw him. He was a sweet, curious, beautiful little fuzzy pup and would protest and cry if he thought

he might be left out of anything. He found a wonderful home with Chris and Ann and at that point became known as Ruddy. The Johnson's have kept in touch frequently to let us know that their entire family and neighborhood just love Ruddy. An added bonus to his placement was that they reported Schlager had renewed her energy with his presence. The Johnson's believe the company of having Rudy with her is keeping her active and busy once again.

With the devotion and love the Johnson's demonstrated toward their old Golden Retriever, Schlager, it was easy to place little Ruddy in their arms and send him off to his new home with them.
