

BARC'S IZZY
DOB: 04-27-06

In the Fall of 2006, my husband and I helped transport 6 puppies and a 3 year old female from Durant, OK to Big Cabin, OK where Liz Caldwell from BARC met us and then she transported them on to Amy Kessler's home. We had about a 3-4 hour drive so we named the puppies after the TV show, "Grey's Anatomy" characters. There was one that we named Izzy, after the long-legged, beautiful model who became a doctor on the show. "Izzy" didn't want to stay in the back of the SUV but wanted to stay in my lap. She quickly became a favorite of ours.

I would watch the BARC website on a regular basis and was pleased when all 7 of the dogs got adopted. A couple of months later Izzy was back on the website. I told my husband and he said to email Amy and tell her we will take her. I said, "Don't be joking about this as you know I will". Well, he wasn't joking and I did email Amy and just like with Mikki, the rest is history.

We drove to Kansas from Oklahoma City in January of this year and picked up our beloved Izzy. We have now had her just about 5 weeks and she has clearly found her place in our home. We, lovingly, call her "our funny little brat girl". She is hysterically funny. She demands our attention at all times. She is the ultimate "Miss Priss".

We don't know much about her health. Our vet wants to x-ray her at about 11 months as she seems to arch her back at times. She seems to be doing this less than when we first got her.

We thank God, every day for Mikki, Izzy and for BARC. Without BARC we would never have the joys these two dogs bring to our lives. BARC is made up of some very special people to help some very special dogs.
