

Nutmeg

aka Autumn
Sara Holtz

Nutmeg was rescued from a backyard breeder situation in south-eastern Ohio. She was eight weeks old and one of seven pups of the litter. She was rescued by Vilma Briggs. Nutmeg found her home through Thirddtyme Rescue. She lived with Vilma for a few weeks in Mt Gilead, Ohio before she went to her forever home with Sara Holtz in Neenah, Wisconsin.

When entering foster care Nutmeg was sweet, but poorly socialized with humans. She was hand shy when approached. She eventually went to live with her new mom, another 2 yr old female berner companion and two cats. At that point she became known as Autumn. About two months after her adoption and when she was about 4-5 months old, she went into a bloat episode and had emergency surgery and stomach tacking. She recovered well and is still doing fine.
